

Thibault Leruitte

thibault@leruitte.name

born on February 12th, 1987 (24 years old)

Belgian, single

Enthusiastic Computer Engineer

Education

- 2005 - 2011 **Master in Computer Engineering, Université catholique de Louvain (Louvain School of Engineering).**
Option in networking and security.
Minor in management (Louvain School of Management).
- Master Thesis** **Design of a migration architecture for a communication platform on a cloud.**
Promoter: Prof. Peter Van Roy, Sabri Skhiri (Euranova).
- Awards** First year of master succeeded with high distinction.
First prize in the competition of the Languages and Algorithms for Distributed Applications course and publication of the project.

Experience

- Since 2006 **Founder of Whistenligne.com**
Whistenligne is an online multiplayer platform. It allows visitors to play whist, a Belgian card game, and to interact with other visitors. I have developed the game (in Java) and maintained the website (with Wordpress). The game attracts about 1,000 players per day.
- 2010 **Nine weeks internship, InTech S.A.**
InTech S.A. is a company active in the IT engineering sector. I developed a flux and service logging module for the ITR application (debt collection application).
- 2003 - 2009 **Student worker**
During my education, I worked about a month each year. I worked as stock clerk (Pall Center of Oberpallen), as sales advisor (Carrefour of Arlon), and as IT technician (Computacenter).

Computer skills

- Languages** Java, C, Bash, MySQL, XHTML, CSS.
- Operating Systems** Mac OS X, GNU/Linux (Debian), Microsoft Windows.
- Miscellaneous** Eclipse, JBoss, Latex, OSI model, OOP, SVN, UML, Wordpress.

Languages

- French** Native language.
- English** Good level.
All classes from my master were given in English.

Interests

Usability and user experience, technology watch, playing whist.
